

## **Redflex Traffic Systems Wins New Zealand Mobile Radar Speed Camera Contract valued at over AU\$3 million**

**5 November 2008**

Redflex Traffic Systems Pty Ltd, a wholly owned subsidiary of Redflex Holdings Limited, is pleased to announce another international success with the execution of a contract with the New Zealand Police for the supply of mobile radar speed cameras. The contract, valued at over AU\$3 million, is subject to the successful completion of the gazetting process in New Zealand.

The win follows on from other successes in the mobile enforcement market segment, including the supply of mobile radar speed cameras to the South Australian Police and the Redflex selection as the outsourced vendor for the first state-wide speed enforcement program in North America by the Arizona Department of Public Safety. The Arizona contract is for up to 170 systems which include 40 mobile radar speed cameras as well as 10 mobile red light systems, 90 dedicated fixed speed systems and 30 combination systems.

Redflex cameras have been used in a red-light enforcement trial at intersections in the central Auckland area.

Redflex manufactures and supplies traffic cameras and processing systems to world-wide markets. Redflex is the market leader in Australia and has either won or is developing significant opportunities in the Middle East, Asia, Africa and Europe. In the USA, Redflex has contracts with more than 220 U.S. cities, and is the largest provider of digital red light and speed enforcement services in North America. With photo speed programs in 9 states and photo red light programs across 21 states, Redflex has consistently led the market in contract wins, system installation rates and market share.
